

# Keeping your IT aligned to your business

## Systems Integration

### Industry Sectors

CCE delivers IT support services to customers across a wide range of industries. We develop specific expertise to respond to the specific needs of individual sectors.

#### Services include:

- Hardware Support
- Business Continuity
- Outsourcing & Managed Services
- Online Backup Services
- Out of Hours Service Desk
- Managed Voice & Data
- Systems Integration
- Managed Hosting

#### Credentials

- Over 30 years' IT support experience
- Fully qualified technicians
- Industry recognition
- Partner accreditations

Today's corporate IT structure is under increasing pressure, be it from the increasing demands of complex processing in the production environment or the advent of technologies such as networked storage, virtualisation and more online functionality. Many vendors will tell you that this necessitates a complete technology refresh ... at CCE we take a more pragmatic approach.

Our Systems Integration service provides an economical means of keeping your corporate IT structure aligned to your business – where necessary optimising your existing systems and upgrading selected components as and when required.

Because it is our job to understand your business model and objectives – and we probably already have experience of working in a similar sector – we can intelligently apply our specialist knowledge to deliver viable solutions that benefit business processes and relieve the pressure on your internal IT resource.

### Why choose CCE Systems Integration services?

#### Consultancy

We provide the full spectrum of Systems Integration consultancy from troubleshooting and upgrading IT infrastructures to the introduction of more efficient working practices. Typical examples include updating to more powerful servers, through to identifying, specifying and implementing wholesale technology migrations to facilitate business growth.

#### Supply

We source the right products, at the right price, to fulfil all of your requirements. This includes customer access to our online store, enabling fast, convenient procurement. We can also easily add equipment to your maintenance schedule, relieving the pressure on your own IT resources.

#### Asset Management

We can help you take control of your company-wide IT assets, from providing simple inventory control to ongoing remote management.

#### Project Management

We boast highly developed project management skills and assign a 'single point of contact' model to every project.

### Find out more

To find out more about Systems Integration and our other services, please contact our sales team on **08707 708 700** or email [sales@cce.co.uk](mailto:sales@cce.co.uk)

We will be pleased to discuss your requirements, welcome you on a tour of our facilities or provide you with more information.
