Managed Services - Your IT aligned to your business

Today's corporate IT structure is under increasing pressure, be it from the increasing demands of complex processing in the production environment or the advent of technologies such as networked storage, virtualisation and more online functionality.

Many vendors will tell you that this necessitates a complete technology refresh - at CCE we take a more pragmatic approach.

Why choose CCE Managed Services?

Our Managed Services provides an economical means of keeping your corporate IT structure aligned to your business - where necessary optimising your existing systems and upgrading selected components as and when required.

Because it is our job to understand your business model and objectives, we can intelligently apply our specialist knowledge to deliver viable solutions that will benefit your business and relieve the pressure on your internal IT resource.

Consultancy

We provide the full spectrum of Managed Services consultancy from

troubleshooting and upgrading IT infrastructures to the introduction of more efficient working practices. Typical examples include updating to more powerful servers, identifying, specifying and implementing wholesale technology migrations to facilitate business growth.

Supply

We source the right products, at the right price, to fulfil all of your requirements. This allows you access to our online store, which enables fast, convenient procurement. We can add equipment to your maintenance schedule, relieving the pressure on your own IT resources.

Asset Management

We can help you take control of your company-wide IT assets, from providing simple inventory control to ongoing remote management.

Project Management

We boast highly developed project management skills and assign a 'single point of contact' model to every project.

Find out more
